

Warm Greetings to all of you !

and looking for hopefully ?? an above average Temp Winter and much Sunshine

Outside of the high humidity daily, we had an awesome Summer with no rain days. What a difference from 2021 which we where all underwater / saturated with rain.

Thank you very much !! ☺, as you have promoted and allowed Our Company another strong year in client support, services, along with product sales

We have begun our Fall programs, starting with Trimming / Irrigation Winterizing / Root feeding, Aeration / Rolling / Fall cleanup / Burlap wrapping / etc... Call if you need anything as time is short.

If you on our Email promotions you already know about the great sales of all In-Stock Plants

No matter what happens with the economy, prices will increase next season and some material will still be not available

As we are prepping for a **5+ month Grey-Out-Drab color change** in MI and fluffy covering of the "White Stuff" - **Snow !!** , we have attached your Winter agreement

Material pricing is up a bit, but the labor, fuel, tires, oil, vehicles, insurance, mechanics, parts, etc.... is way up

Please review and email / mail **back prior to November 15th**
